

[HEART OF TEXAS]

Dream On

A new virtual reality experience in Dallas' NorthPark Center, **Dreamscape** allows you to be the protagonist who participates with your entire body—even picking up and using objects to advance the plot. Dreamscape offers three 20-minute experiences: an underwater adventure with blue whales, a trek through an alien zoo with dinosaur-like creatures, and a quest to locate a legendary jewel hidden in a cursed temple. In an experience described as a mix between stepping into a movie and a theme park, participants (up to six at a time) gear up with hand and foot trackers, plus a backpack and a headset, and embark on their adventure. *Tickets, \$20.*

Participants must be at least 10 years old and at least 48 inches tall.
